Mapping Bankfull Geometry with MATLAB: Introducing the BankfullMapper Toolbox

24 February 2026
Online, 14:00 – 15:00 (CET)

Join us for a webinar featuring **BankfullMapper**, an open-source MATLAB toolbox designed to streamline the identification of bankfull geometry from high-resolution topographic data.

BankfullMapper

Register Now!

Michele Delchiaro, the creator of BankfullMapper, will deliver a live demonstration of the toolbox, showcasing its workflow, key features, and practical applications.
